# GUARDSPRO

OPERATIONALIZE YOUR DIGITAL WORKFORCE MANAGEMENT WITH GUARDSPRO TIME CLOCK

EASILY TRACK
SECURITY GUARD WORK HOURS

Want to stay on top of your guard's work location and time tracking? Make it seamless with GuardsPro Time Clock.

It's a powerful module designed to let you keep track of time, attendance, time off request, billable hours of all your guards by automatically creating accurate digital timesheets that you can approve, reconcile, and export.

CUT DOWN ON
TEAM MANAGEMENT TIME

- It doesn't matter how many security guards you have, GuardsPro Time Clock makes it easy to track and manage guard work hours.

- It comes with every feature you need to accurately do that and more for your company without the big-business price tag.

- If you are looking for a simple option to streamline your security guard company's time tracking, try GuardsPro.

AUTOMATE TIME
AND ATTENDANCE TRACKING

Security guards equipped with GuardsPro's groundbreaking mobile patrol app allow them to clock in/out. Time Clock enables your managers to see who's on shift, who's running late, and who's on break.

SAY GOODBYE TO MANUAL TIMESHEETS
Improve your business processes, guard and client experience, accuracy with your salaries and invoices.

STREAMLINE BILLING AND PAYROLL PROCESS
Integrated with our payroll software, GuardsPro time clock's automatically updated timesheets simplify payroll.

SET UP GEOFENCE-BASED CLOCK IN/OUT
Force your guards to clock inside the geofence and receive detailed location-based records of work hours.

SETUP CUSTOM BREAKS FOR YOUR GUARDS
Define criteria like when the break starts, if the guard can end break before the break end time, and more.
